Instructions

For the evaluation of the local training courses, organised as multiplying “Co-Pilots” events by the participants of Pilots training course once back home, we suggest to use a simple questionnaire that is composed by:

- 1. Six general open questions*
- 2. Evaluation boxes that have to be filled for the course as a whole and for every section, if there are more than once (for example: theoretical presentation, workshop, discussion, etc).*

These boxes permit to evaluate some aspect of the course as a whole and of the different sections: interest, relevance, enjoyment, applicability, interactivity and materials. The participant must give a vote from 1 (the lowest) to 4 (the highest) for all aspects of every session. The participant can also leave free comments in the boxes.

The questionnaire has to be given at the end of the course, and every participant has to fill it personally, in a written way, and anonymously.

Title of the course - Institution, place and date
